## **Maithan Alloys FY17 Financial Results**

- **Profit After Tax up by 143%**
- **EBITDA up by 115%**
- **Turnover up by 17%**

9<sup>th</sup> May, 2017, Kolkata – Maithan Alloys Limited, India's largest manganese alloy producer and exporter announced its Audited Financial results for the full year ended 31<sup>st</sup> March 2017.

**Key Consolidated Financial Highlights are as follows:**

Particulars (Rs Crs)	FY17	FY16	Growth YoY
Turnover	1,342	1,151	17%
EBITDA	273	127	115%
EBITDA %	20.3%	11.1%	920 bps
PAT	191	79	143%
PAT %	14.3%	6.9%	740 bps

During the year, the company achieved a growth of 4% in volume terms and 17% in value terms with superior product range, technology upgradation and better capacity utilization. The substantial increase in EBITDA and PAT were due to rebounding of the metal industry since Q3 power subsidies announced by various state governments and stabilization of raw material prices in Q4. The total exports for FY17 was Rs. 674 crores vis a vis Rs. 556 crores in FY16, a growth of 21%. The total exports contributed 50% of the total revenues.

**Dividend:**

The Board of Directors has recommended a dividend of Rs. 2.50 per share of Rs. 10 each for the financial year 2016-17, subject to shareholders approval.

**Commenting on the results, Mr. S C Agarwalla, Chairman & Managing Director** said "We are pleased with the outstanding performance of our Company with Revenues up by 17%, EBITDA up by 115% and PAT up by 143%. The Company has a well-recognized brand for its quality products and long-term relationships with large end customers. In the business of Ferro Alloys, we have been able to manage well, the principal challenge of heterogeneous raw materials from diverse geographies getting converted into stable, consistent and uniform product qualities. We constantly endeavour to achieve this by investing in knowledge, training and equipment.

As per the National Steel Policy 2017, the steel manufacturing capacity in India is expected to increase to 300 million tonnes by 2030. This is going to be a huge driver for growth of our Company. Our company is very lowly geared with Debt to Equity at 0.1x. The huge growth potential in our business in the coming years will be met by achieving even higher production at our facilities through incremental improvements and by exploring acquisition of stressed assets at reasonable costs. We expect to have operating profits in the range of 15-17% over the next few years."
